ADVANTAGES OF THE HAMBURG LINE.

ENGLAND. The steamers of this line stopping at Plymouth, where tickets to London and other principal cities of England, good for thirty days, and with the privilege of stopping at any intermediate station on the railway for which the ticket is issued, may be procured from the Company's agents; they give the passengers an opportunity of passing through one of the most picturesque parts of England. Plymouth is also in close proximity to the fashionable English sea-bathing place, Torquai.

FRANCE. Stopping at Cherbourg this line affords a direct communication to France—passengers for this country and the South of Europe avoiding the annoyances of Custom-house formalities in England, and trans-shipment from there in small, uncomfortable boats across the Channel.

HAMBURG, the largest port of Germany, offers more and better railway and steamship facilities than any other port on the Continent to the interior of Germany, to Eastern Europe, as well as to Denmark, Sweden, and Norway.
